1. Details of the Offer

1.1 The Offer

The Company offers under this Prospectus a non-renounceable pro-rata offer of Shares to existing Shareholders on the basis of 1 Share for every 1 Share held on the Record Date ("**Offer**") which is fully underwritten.

Each Share is offered at an issue price of \$0.03 per Share payable in full on application.

Assuming that no Options are exercised prior to the Record Date, a maximum of approximately 319,679,494 Shares will be issued pursuant to this Prospectus to raise a maximum of \$9,590,385 (before costs).

Please refer to Section 5.1 for a summary of the rights attaching to Shares.

1.2 Use of funds

The purpose of the Offer is to raise funds to:

- a) Allow the Company to expand the range and size of investments;
- b) Meet the costs of this Offer, including payments to the Underwriter, legal fees, document preparation fees, ASX and ASIC fees, the cost of printing and distributing this Prospectus and other miscellaneous expenses; and
- c) Provide additional working capital.

In accordance with the Company's strategy of being a strategic investment company, Eurogold intends to actively pursue opportunities in the resources sector by way of direct equity investments in companies with resource projects or directly into projects by way of ownership, joint ventures or farm in arrangements.

The additional funds raised from the Offer will enable Eurogold to pursue an expanded range of investment opportunities and make larger single investments than it could using its existing resources.

1.3 Your Entitlement and Acceptance

Your Entitlement to participate in the Offer will be determined on the Record Date. The number of Shares to which you are entitled is shown on the Entitlement and Acceptance Form accompanying this Prospectus.

Any fractions in Entitlements have been rounded down to the nearest whole number of Shares.

Acceptances must not exceed your Entitlement shown on the Entitlement and Acceptance Form, although you may accept all or only part of your Entitlement. If your acceptance exceeds your Entitlement, acceptance will be deemed to be for your maximum Entitlement and any surplus Application Monies will be returned to you without interest.

A detailed explanation of the actions required by Shareholders is set out in Section 2.

1.4 Closing Date

The Company will accept Entitlement and Acceptance Form(s) from the date of this Prospectus until the Closing Date or such other date as the Directors in their absolute discretion may determine without prior notice.

The Company reserves the right, subject to the Corporations Act and the Listing Rules, to cancel the Offer at any time prior to allotment (in which case Application Monies for Shares which have not been issued will be refunded (without interest) as soon as practicable) and to extend the Closing Date.

1.5 No minimum subscription

There is no minimum subscription as the Offer is fully underwritten.

1.6 Non-renounceable Offers

The Offer is made on a non-renounceable basis. This means that your Entitlement under this Prospectus is not transferable and you may not renounce (sell) your Entitlement which you do not wish to accept. Any portion of your Entitlement that you decide not to accept by the Closing Date will lapse and you will receive no benefit.

1.7 Entitlement and Acceptance Form

The Entitlement and Acceptance Form will be sent with a copy of this Prospectus to eligible Shareholders.

Acceptance of a completed Entitlement and Acceptance Form by the Company creates a legally binding contract between the Applicant and the Company for the number of Shares accepted by the Applicant. The Entitlement and Acceptance Form does not need to be signed to be a binding acceptance of Shares.

If the Entitlement and Acceptance Form is not completed correctly it may still be treated as valid. The Directors' decision as to whether to treat the acceptance as valid and how to construe, amend or complete the Entitlement and Acceptance Form is final.

1.8 Underwriting and Sub Underwriting

The Offer is fully underwritten by the Underwriter and the Sub-Underwriter. The Underwriter and Sub-Underwriter will take up any Shares not taken up by existing Shareholders subject to certain termination events. Please refer to Section 5.6 for a summary of the Underwriting Agreement.

The Underwriter's obligations are limited to the extent to which the Sub-Underwriter performs its obligations to sub-underwrite the Offer.

The Sub-underwriter as nominee for Katong Assets Ltd currently holds 42,438,100 Shares in the Company representing 13.275% of the Shares currently on issue. As this is a nominee shareholding it has not been included in the table below as shares in which the Sub-underwriter or APRL has a relevant interest at the time of the lodgement of the Prospectus.

The Sub-Underwriter proposes to enter into a further agreement with APRL to take up to all of the Shortfall (if any).

APRL, ultimately owned by Allied Properties (H.K.) Limited (a listed company registered in Hong Kong). Allied Properties (H.K.) Limited also owns approximately 68.64% of Sun Hung Kai & Co, of which the Sub-Underwriter is a wholly owned subsidiary.

Depending on the level of acceptance by Shareholders of their Entitlements, the effect on the ownership in the Company of the Sub-underwriter or APRL subscribing for all the Shortfall is in the table below.

	100% acceptance	75% acceptance	50% acceptance	25% acceptance	0% acceptance

1.9 Allotment and issue

The Shares will be issued as soon as practicable after the Closing Date. Holding statements in relation to the Shares will be despatched in accordance with the proposed timetable.

It is the responsibility of Applicants to determine their allocation prior to trading in the Shares. Applicants who sell Shares before they receive their holding statements will do so at their own risk.

1.10 Application Monies held on trust

All Application Monies received for the Shares will be held on trust until the Shares are allotted. All Application Monies will be returned (without interest) if the Shares are not allotted.

1.11 ASX quotation

In accordance with the Listing Rules, application has been made to ASX for the official quotation of the Shares offered by this Prospectus. If permission is not granted by ASX for the official quotation of the Shares offered under this Prospectus within three months of the date of this Prospectus (or such longer period as may be permitted by ASIC), the Company will repay, as soon as practicable (without interest) all Application Monies received pursuant to this Prospectus. ASX, its officers and employees, take no responsibility for the content of this Prospectus, and the fact that ASX may grant official quotation of the Shares is not to be taken in any way as an indication of the merits of Eurogold or the Shares.

1.12 Overseas Shareholders

This Prospectus and an accompanying Application Form do not, and are not intended to, constitute an offer of Shares in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus. The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

No Offer will be made to Shareholders resident outside Australia and New Zealand.

1.13 Risk factors

An investment in Shares should be regarded as speculative. In addition to the general risks applicable to all investments in securities of a listed company, there are specific risks associated with an investment in the Company which are set out in Section 4.

1.14 Withdrawal of Prospectus

The Directors may at any time decide to withdraw this Prospectus, in which case the Company will repay, as soon as practicable (without interest), all Application Monies received pursuant to this Prospectus.

- (b) Estimated costs of the Offer of \$458,925 have been recognised directly against share capital, as a reduction of the proceeds of the Offer.

Contingent Asset and Liabilities

- (a) On 10 July 2007 the company disposed of its Ukrainian gold mining assets for US \$5 million. US \$3 million of this amount remains outstanding and will only be received upon the purchaser meeting a regulatory milestone relating to the advancement of the Saulyak Gold Project.
- (b) In addition to the disposal of its Ukrainian gold mining assets for US \$5 million the company has settled its legal proceedings against Oxus Holdings (Malta) Limited and Oxus Gold Plc arising from the termination of an earlier asset sale agreement entered into between the Company and Oxus Holdings (Malta) Limited and Oxus Gold Plc on 30 April 2006 for the sale of the company's Ukrainian gold assets. The net value of the settlement to the Company totalled \$4,805,554. Until the preparation of the Company's taxation return for the year ended 30 June 2008 is completed the potential tax liability, if any, in relation to the sale and litigation proceeds will not be established. The ultimate

amount of tax liability, if any, will be dependant on a number of factors including but not limited to:

- (i) The final amount received in respect to the sale;
 - (ii) The classification of the transactions for taxation purposes;
 - (iii) The final determination of the asset cost bases for taxation purposes; and
 - (iv) The ability of the Company to offset other expenses and capital losses which may be available to it.
- (c) The Company has guaranteed the payment of a royalty by Saulyak Limited Liability Company based on gold output from the Saulyak Gold Project which was disposed of by the Company on 10 July 2007. The royalty is up to 2% net smelter royalty per ounce of gold produced from the Saulyak Gold Project payable only in respect of ounces of gold produced over 750,000 ounces in total. Gold production from the Saulyak Gold Project has not yet commenced with the current owners of the project yet to secure a mining licence. At the time of the sale of the project by the Company total reserves identified at the project were not in excess of 750,000 ounces.
- (d) The Company is a defendant in proceedings commenced by the Republic of Yugoslavia in Yugoslavia seeking damages for the accidental overflow of treatment water from the tailings dam spillage on 30 January 2000. Eurogold believes that it has no liability to the Republic of Yugoslavia with respect to those proceedings.

3.5 Future dividends

The declaration of dividends, if any, by Eurogold, and the extent to which franking credits are attached to such dividends, will be subject to a variety of factors including the financial results of Eurogold, the general financial, economic and business environment, ongoing capital expenditure, future cash requirements, the taxation position of Eurogold and any other factors which the Directors may consider relevant.

4. Risk factors

Eurogold's business is subject to a number of risks that may impact on the financial performance of the Company and the price and value of its securities. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, but many are outside the control of Eurogold and cannot be mitigated.

The following summary describes some of the risks that investors should consider before deciding whether or not to take up their Entitlement under the Offer. Potential investors should read this Prospectus in its entirety and consult their professional advisers before applying for Shares. Any of the risk factors set out in this Section 4, as well as any other factors not identified in this Prospectus, may materially affect the financial performance of the Company and the market price of Shares.

None of the Company, its Directors, nor any of its professional advisers gives any form of assurance or guarantee as to future dividends, return on capital or the price at which Shares might trade on ASX.

The risk factors described in this section are not intended to be an exhaustive list of the risk factors to which the Company is exposed.

4.1 Specific Risks in relation to Eurogold

(a) Investments, Projects and Acquisitions

Eurogold's board has extensive experience in the resources industry which it will utilise to identify, pursue and assess resource opportunities, including potential acquisitions, joint ventures, or investments in the resources sector, which can enhance Shareholder value. In doing so the Company may engage consultants, either in Australia or overseas, for the purposes of realising any potential investments or opportunities it identifies. As an incentive to perform, consultants may be paid cash, issued securities, or a combination of both.

The assessment of new investments and opportunities (whether completed or not) may require the payment of monies (as a deposit and/or exclusivity fee) after only limited due diligence and prior to the completion of comprehensive due diligence. There can be no guarantee that any proposed acquisition will be completed or be successful. If the proposed acquisition is not completed, monies already advanced may not be recoverable, which may have a material adverse effect on the Company.

If an investment or acquisition is completed, the Board will need to reassess, at that time, the funding allocated to current portfolio and new investments opportunities, which may result in the Company reallocating funds from other projects and/or the raising of additional capital (if available). Furthermore, notwithstanding that an acquisition may proceed upon the completion of due diligence, the usual risks associated with the new project/business activities will remain.

Where appropriate, the Company may dispose of an investment or interest in projects either in part or in whole if it considers that the proceeds on disposal can be used to fund either acquisitions or development activities which may be more appropriate for the Company to pursue.

(b) Volatility in the market price of Shares

Although the Company is listed on ASX, there is no assurance that an active trading market for its Shares will be sustained. There is also no assurance that the market price for the Shares will not decline below the issue price. The market price of the Company's Shares could be subject to significant fluctuations due to various external factors and events, including the liquidity of the Shares in the market, any difference

between the Company's actual financial and operating results and broader market-wide fluctuations.

(c) **Litigation Risks**

The Company is a defendant in proceedings commenced by the Republic of Yugoslavia in Yugoslavia seeking damages for the accidental overflow of treatment water from the tailings dam spillage on 30 January 2000. Eurogold believes that it has no liability to the Republic of Yugoslavia with respect to those proceedings. There is, however, no guarantee that the Company will not receive an adverse finding in relation to these proceedings which may impact on the financial viability of the Company and may impact on its future operations.

4.2 **General Risks**

(a) **Securities Investment**

Applicants should be aware that there are risks associated with any securities investment. The prices at which the Company's Shares trade may be above or below the issue price, and may fluctuate in response to a number of factors.

Furthermore, the stock market, and in particular the market for mining and exploration companies, has experienced extreme price and volume fluctuations that have often been unrelated or disproportionate to the operating performance of such companies. There can be no guarantee that these trading prices and volumes will be sustained. These factors may materially affect the market price of the Shares, regardless of the Company's operational performance.

(b) **Share Market Conditions**

The market price of the Shares may fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(c) **Economic Risk**

Changes in the general economic climate in which the Company operates may adversely affect the financial performance of the Company. Factors that may contribute to that general economic climate include the level of direct and indirect competition against the Company, industrial disruption and the rate of growth of gross domestic product in Australia and other jurisdictions in which the Company may acquire investments or mineral assets.

(d) **Legislative changes**

Changes in government regulations, policies and the laws of foreign countries may have an adverse effect on the Company's operations and financial performance. The Directors cannot guarantee that current regulations, policies and laws will not change or impact on the Company's operations.

(e) **Mineral Prices**

The factors which influence the price of minerals include, but are not limited to, supply and demand, forward selling, general world economic conditions and the outlook for interest rates, exchange rates, inflation and other commodity prices. A change in commodity prices may affect the value of the Company's investments or projects and impact on the financial performance of the Company.

(f) **Operating risks**

Mineral production is a high-risk business with no guarantee of success. By investing in companies or projects in the mineral production sector the Company is subject to the risks inherent in the conduct of mining operations. The operations of the Company or the companies in which it invests may be disrupted by a variety of events and hazards which are beyond the Company's control, including environmental hazards, industrial accidents, technical failures, labour disputes, government decisions, unusual or unexpected rock formations, underground mining conditions, ground conditions, flooding and extended interruptions due to inclement or hazardous weather conditions, fires, explosions and other incidents. These risks and hazards could also result in damage to, or destruction of production facilities, personal injury, environmental damage, business interruption, monetary losses and possible legal liability.

(g) **Joint venture parties and contractors**

The Directors are unable to predict the risk of the financial failure or default by a participant in any joint venture to which the Company may become a party or insolvency or other managerial failure by any of the contractors which may be used by the Company in its activities.

(h) **Future funding**

The future capital requirements of the Company will depend on many factors including its business development activities. Should the Company require additional funding there can be no assurance that additional financing will be available on acceptable terms, or at all. Any inability to obtain additional finance, if required, would have a material adverse effect on the Company's business and its financial condition and performance.

4.3 Other risk factors

Other risk factors include those normally found in conducting a business including risks relating to employees (through personal injuries, industrial matters or otherwise or any other cause), strikes, lockouts, loss of service of key management or operational personnel, non-insurable risks, adverse weather conditions, and other matters that may interfere with the business or trade of the Company.

4.4 Investment Speculative

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Securities offered under this Prospectus. Therefore, the Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Securities. Potential investors should consider that the investment in the Company is speculative and should consult their professional adviser before deciding whether to apply for Securities pursuant to this Prospectus.

5. Additional information

5.1 Rights attaching to Shares

A summary of the rights attaching to Shares in the Company is set out below. This summary is qualified by the full terms of the Constitution (a full copy of the Constitution is available from the Company on request free of charge) and does not purport to be exhaustive or to constitute a definitive statement of the rights and liabilities of Shareholders. These rights and liabilities can involve complex questions of law arising from an interaction of the Constitution with statutory and common law requirements. For a Shareholder to obtain a definitive assessment of the rights and liabilities which attach to Shares in any specific circumstances, the Shareholder should seek legal advice.

(a) Voting

At a general meeting, on a show of hands every Shareholder present in person has one vote. At the taking of a poll, every Shareholder present in person or by proxy and whose Shares are fully paid has one vote for each of his or her Shares. On a poll, the holder of a partly paid share has a fraction of a vote with respect to the share. The fraction is equivalent to the proportion which the amount paid (not credited) bears to the total amount paid and payable (excluding amounts credited).

(b) General Meetings

Each Shareholder is entitled to receive notice of, attend and vote at general meetings of the Company and to receive all notices, financial statements and other documents required to be sent to Shareholders under the Constitution of the Company, the Corporations Act and the Listing Rules.

(c) Dividends

The Directors may pay to Shareholders any interim and final dividends as, in the Directors' judgement, the financial position of the Company justifies. The Directors may fix the amount, the record date for determining eligibility and the method of payment. All dividends must be paid to the Shareholders in proportion to the number and the amount paid on the Shares held.

(d) Transfer of Shares

Generally, all Shares in the Company are freely transferable subject to the procedural requirements of the Constitution, and to the provisions of the Corporations Act, the Listing Rules and the ASTC Operating Rules. The Directors may decline to register an instrument of transfer received where the transfer is not in registrable form or where refusal is permitted under the Listing Rules or the ASTC Operating Rules. If the Directors decline to register a transfer the Company must give reasons for the refusal. The Directors must decline to register a transfer when required by the Corporations Act, the Listing Rules or the ASTC Operating Rules.

(e) Variation of Rights

The Company may only modify or vary the rights attaching to any Shares with the prior approval by a special resolution of the Shareholders, or with the written consent of the holders of at least three-fourths of the issued Shares.

(f) **Directors**

The minimum number of Directors is three and the maximum is ten. Currently, there are three Directors. Directors must retire on a rotational basis so that one-third of Directors must retire at each annual general meeting. Any other Director who has been in office for three or more years must also retire. A retiring Director is eligible for re-election. The Directors may appoint a director either in addition to existing Directors or to fill a casual vacancy, who then holds office until the next annual general meeting.

(g) **Decisions of Directors**

Questions arising at a meeting of Directors are decided by a majority of votes. The Chairman has a casting vote.

(h) **Issue of Further Shares**

Subject to the Constitution, the Corporations Act 2001 and the Listing Rules, the Directors may issue, or grant options in respect of, Shares to such persons on such terms as they think fit. In particular, the Directors may issue preference shares, including redeemable preference shares, and may issue shares with preferred, deferred or special rights or restrictions in relation to dividends, voting, return of capital and participation in surplus on winding up.

(i) **Officers' Indemnity**

To the full extent permitted by the law and to the extent not covered by insurance, the Company must indemnify each officer of the Company against all losses and liabilities incurred by the person as an officer of the Company, including costs and expenses incurred in defending proceedings in which judgement is given in favour of the person or in which the person is acquitted or in connection with relief granted to the person in an application under the Corporations Act 2001 in respect to such proceedings.

(j) **Alteration to the Constitution**

The Constitution can only be amended by a special resolution passed by at least 75% of Shareholders present and voting at a general meeting. At least 28 days' notice of the intention to propose the special resolution must be given.

(k) **ASX Listing Rules Prevail**

To the extent that there are any inconsistencies between the Constitution and the Listing Rules, the Listing Rules prevail.

5.2 Share trading history

The lowest and highest market sale prices of Shares on ASX during the three months immediately preceding the date of this Prospectus were \$0.022 on 28 April 2008 and \$0.04 on 15 April 2008 respectively.

The last sale price for Shares traded on ASX prior to the date of this Prospectus was \$0.023 on 2 July 2008.

The issue of Shares may affect the market price of Shares.

5.3 Options

As at the date of this Prospectus the Company has granted 4,000,000 options over unissued Shares ("**Options**"), and each Option is convertible into one Share.

If a holder of an Option exercises their Options and is registered as the holder of Shares in respect of those Options as at the Record Date, they will be entitled to participate in the Offer in respect of those Shares acquired on exercise.

Options not exercised prior to the Record Date will confer no entitlement to participate in the Offer on their holding.

5.4 Rights attaching to Options

(a) **Entitlement**

Each Option (together the 'Options') entitles the holder to subscribe for one Share upon exercise of each Option.

(b) **Exercise Price and Expiry Date**

The Options have an exercise price of \$1.00 each and an expiry date of 30 June 2014.

(c) **Exercise Period**

The Options are exercisable at any time on or prior to the Expiry Date.

(e) **Shares issued on exercise**

Shares issued on exercise of the Options rank equally with the then shares of the Company.

(f) **Timing of issue of Shares**

After a Option is validly exercised, the Company must, at the later to occur of, 15 Business Days of the notice of exercise and receipt of cleared funds equal to the sum payable on the exercise of the Options and 5 Business Days of the Company being in a position to comply with paragraph (b)(ii) below:

- (i) issue and allot the Share; and
- (ii) do all such acts matters and things to:
 - A. obtain the grant of quotation for the Share on ASX; and
 - B. ensure that the sale of the Share within 12 months of issue does not cause a breach of the Corporations Act.

(g) **Participation in new issues**

There are no participation rights or entitlements inherent in the Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Options.

However, the Company will ensure that for the purposes of determining entitlements to any such issue, the record date will be at least ten business days after the issue is announced. This will give the holders of Options the opportunity to exercise their Options prior to the date for determining entitlements to participate in any such issue.

(h) **Adjustment for bonus issues of Shares**

If the Company makes a bonus issue of Shares or other securities to existing Shareholders (other than an issue in lieu or in satisfaction, of dividends or by way of dividend reinvestment):

- (ii) the number of Shares which must be issued on the exercise of an Option will be increased by the number of Shares which the Optionholder would have received if the Optionholder had exercised the Option before the record date for the bonus issue; and
- (iii) no change will be made to the Exercise Price.

(i) **Adjustment for rights issue**

If the Company makes an issue of Shares pro rata to existing Shareholders (other than an issue in lieu of in satisfaction of dividends or by way of dividend reinvestment) the Exercise Price of an Option will be reduced according to the following formula:

$$\text{New exercise price} = O - \frac{E[P-(S+D)]}{N+1}$$

O = the old Exercise Price of the Option.

E = the number of underlying Shares into which one Option is exercisable.

P = average market price per Share weighted by reference to volume of the underlying Shares during the 5 trading days ending on the day before the ex rights date or ex entitlements date.

S = the subscription price of a Share under the pro rata issue.

D = the dividend due but not yet paid on the existing underlying Shares (except those to be issued under the pro rata issue).

N = the number of Shares with rights or entitlements that must be held to receive a right to one new share.

(j) **Adjustments for reorganisation**

If there is any reconstruction of the issued share capital of the Company, the rights of the Optionholders may be varied to comply the ASX Listing Rules which apply to the reconstruction at the time of the reconstruction.

(k) **Quotation of Options**

The Options will be unlisted Options. No application for quotation of the Options will be made by the Company until such time as the Company in its absolute discretion determines otherwise. Should the Company make an application for quotation of the

Options and the ASX accepts the application for quotation of the Options then the Options will be listed Options from the time that the ASX accepts such application.

(l) **Options transferable**

Subject to the proposed transferee being a party which is within the class of parties in section 708 of the Corporations Act to which disclosure is not required, the Options are transferable.

(m) **Lodgement Instructions**
